BRIEF DELIBERATIONS

International Conference on Interdisciplinary Educational Reflections (ICIER) 2019 invited research papers enlighten the field of management, technology, special education, environment, leadership, counselling, preschool education. Papers become example to researchers and students in enhancing the capacity of research, collaboration. In this respect, Ataturk Faculty of Education, Graduate School of Educational Sciences showed the joint collaboration for the professional development of staff and research ability of graduate school for their academic life.

Research is a medium of knowledge sharing and team work. In this perspective, making harmonic picture of collaboration through the research and attempting to conduct a conference by the reflections of innovation and entrepreneurship as being continental in island by reflecting the nature of third generation university concept is the merit of the nature of conference.

An International Conference on Interdisciplinary Educational Reflections organized by the Near East University, Faculty of Education and Graduate School of Educational Sciences, was held at Near East University İrfan Günsel Congress Center, Nicosia, Northern part of Cyprus between 29-30 March, 2019.

Interdisciplinary studies gained an importance in the field of education at developing critical thinking, creativity, collaboration and communication to satisfy the challenges of the 21st century. Therefore, this increased the ability of stakeholders of education to make decisions and synthesize knowledge beyond single disciplines, increase the ability to identify, assess, and transfer significant information needed for problem solving, gain a better overall comprehension of global interdependencies, and develop multiple perspectives, points of view, and values.

The aim of the International Conference on Interdisciplinary Educational Reflections was to provide an opportunity for academicians and professionals from various educational fields with cross-disciplinary interests to bridge the knowledge gap, promote research esteem and the evolution of educational practices in different contexts. Not only the academics but also representatives from the private sectors and students participated in the conference. Hence, all stakeholders of education found an opportunity to take the advantage of interdisciplinary learning within the innovation and entrepreneurship of vision. The activities and discussions were combined and overlapped with different subject’s approaches.
Three key note speakers were participated to the conference. Keynote speakers delivered speeches on new trends of education in order to widen the perspectives on the digitalization and being network society. In this respects, papers from different fields, such as educational technology, environment, management, and counselling, preschool, special education were presented and shared in order to construct eclectic knowledge with the merits of technology.

SIGNIFICANCE
The conference provided a significant effect to learn by making connections between ideas and concepts across different disciplinary boundaries. Students learning in this way are able to apply the knowledge gained in one discipline to another different discipline as a way to deepen the learning experience. The most effective approach to interdisciplinary study enables students and researchers to build their own interdisciplinary pathway by choosing courses which make sense to them. For example, it is not too difficult to find a theme which crosses over disciplinary boundaries in literature, art and history or science and mathematics. Studying topics thematically is one way to bring ideas together resulting in more meaningful learning. This can occur by allowing students to choose their own subjects and their learning is deepened when they reflect on the connections between what they are learning in different disciplines.

AIM OF THE CONFERENCE
The aim of International Conference on Interdisciplinary Educational Reflections 2019 was to provide an opportunity for academicians and professionals from various educational fields with cross-disciplinary interests to bridge the knowledge gap, promote research esteem and the evolution of educational practices in different contexts. Establishing harmonic picture through interdisciplinary perspectives is main aim of the conference.

ICIER 2019 invited research papers that encompass conceptual analysis, design implementation and performance evaluation. As an international refereed conference dedicated to the advancement of the theory and practices in education, ICIER promotes collaborative excellence between academicians and professionals in all sub-fields of Education and enlightens the importance of research in educational sciences by the joint collaborations of Education Faculty and Graduate School of Educational Sciences at Near East University, Nicosia.

KEYNOTE SPEAKERS
Throughout the conference, keynote speakers from Spain and Turkey presented their new perspectives on a variety of topics related the conference. Dr. Ana Perez Escoda delivered speech on digital natives in network society. Prof. Dr. Mustafa Yeland Assoc. Prof. Dr. Mustafa Hilmi Çolakoğlu underlined the importance of reflections on the educational sciences by the research.
WORKSHOPS AND PRESENTATIONS

The workshops and presentations were delivered by more than one hundred participants and most of the research used either qualitative or quantitative research designs and a few used the mixed research methods. The large verify topics touched in the conference can be summarized as follows:

2. Celalettin Özden – Murat Tezer presented research titled “Determination of Education Needs of The Secondary School Students for Technology. The research aimed to determine and present the training needs of technology and design course for Middle school students who are growing in technology and digital world.
3. Research titled “An Overview of Postgraduate Thesis of Mainstreaming Education in Turkey ” presented by MIYASEAKÇAY, TÜÇEKARABAĞ AND BAŞAKBAĞLAMA. The research aimed to examine postgraduate thesis on mainstreaming education carried out in turkey based on various variables.
4. Uijiakhien Okojie and Engin Baysen presented research titled “Content Analysis Of Curriculum Mapping as a Tool For Examining The Alignment of The Subject Learning Outcome And Course Curricul the research aimed to examine the alignment of subject learning outcomes and course curricula between 2016 and 2018.
5. Research titled “The Thoughts of International Students about Environmental Problems in North Cyprus presented by Subhi Salman, Şkin Kiraz And Şerife Gündüz. The research aimed to identify the environmental knowledge of the NEU International Student, and to declare the thoughts and the point of views of the International student’s ecological behaviors about North Cyprus.
6. Çilem Çalışkuşu, Şeniz Şensoy and Şebnem G. Kan presented research titled “Scientific Research in The Graduate Students, Investigation of Qualification. Case Study of North Cyprus. The research aimed to investigate the qualification of The Scientific Research in the Graduate Students.
7. Research titled “Evaluation of Institution Culture in Professional Development; Practical Example Of Security Management And Basic Education,” presented by Merve Okarapinar, Fahriye Altinay, Zehra Altinay, and Gökmen Dağlı. The research aimed to investigate the effects of the knowledge and skills developed by the staff of the Police school on the culture of the Police Organization.

8. Gizem Öneri Uzun and Ayhan Çakıcı presented research titled: Infection, Forgiveness, and The Relationship Between Crimination. The research aimed to investigate the relationship between the level of guilt, revenge, and forgiveness in high school senior students.

9. Research titled “Investigation Of Science Communication Tools In Turkey” presented by Şahin İdin. The research aimed to examine the science communication tools in Turkey.

10. Nurdan Atamtürk, Çelendimililer, and Ahmet Güneyli presented research titled “Analysis of Museum of Innocence Through The Text Linguistic Model.” The research aimed to analyze Museum of Innocence through the text linguistic model.

11. Research titled: “Teacher Attitude and Readiness Forward E-Learning,” presented by Duygu Maviand Erçağ. The research aimed to investigate the teacher attitude and readiness forward e-learning according to the variable of demographics.

12. Dönay Kara and Yağmur Çerkez the Risk of Use Social Media By Disabled People”. The research aimed to investigate the risk of using social media by disabled people and provide awareness about risk factors.

13. Research titled “School Management And Leadership In Turkey, Literature Review”, presented by Aycem Birand, Fahriye Altinay, and Gökmen Dağlı. The research aimed to determine the general trend of the school of leadership and management by analyzing the content of articles conducted in this field.

14. DERVIŞE AMCA – ÇİĞDEM HÜRSEН presented research titled: The Problem of Teaching Practices for Pre-School Teachers”. The research aimed to examine the problems facing the pre-school teaching in teaching practices.

18. Emine Koşucu presented research titled “working with creative drama processing of the Game Development in Class 2 in the Preschool Teaching Department on the level of the student's success. The research aimed to reveal the effect of the creative drama processing of the Game Development in Class 2 in the Preschool Teaching Department on the level of the student's success.

19. Researched titled “The Evaluation of the Geography Program in Pre-school from the Perspective of the Teacher ”, presented by Doğuş Beyoğlu, Nevriye Yılmaz, Funda Gezer Fasli and İpek Kirda rŞahbaz. The research aimed to examine how geography topics are handled in pre-school.

20. Esen Sucuoğlu and Altan Sarikaya Presented a Research Titled “The Perception of the Candidate Teacher of Mathematics in Primary school about the teaching practices”. The research aimed to this research is to explore the perspective of the Candidate Teacher of Mathematics in Primary school about the teaching practices course.

21. Research titled “Qualitative Research Discussion, TRN Case Study”, presented by Örneği Mukaddes Sakallı Demirok.

22. Nedime Karasel and Zehra Altitay Gazi Presented research titled "Barrier" Concept with The Eye of The Primary School Students”. The aimed of research is to describe the metaphors they use in relation to the concept of the obstacle.
23. Research titled “Special Education Teacher candidates perceptions forward teaching via Metafor”, presented by Mukaddes Sakalli Demirok , Serap Meral, Karabacak and Harun Aysever. The research aimed is to investigate the metaphorical perceptions of candidates’ teachers about the special education teacher program.

24. Şengül Başarı ,Gözde Latifoğlu and Ahmet Güneyli presented research titled “The Impact of The Implementation Of The Bibliotherapy on The Students Social Skills”. The research aimed to to investigate the effect of biblio therapy on students’ social skills, reading motivation and reading interest.

25. Research titled “The Effectiveness of The Psycho-Training Program Prepared to Decrease the Paradise-Children's Interaction, presented by Yasemin Sorakin and Yağmur Çerkez. The research aimed to to reveal the effect of father psychoeducation on the level of interaction of fathers with their children.

26. Mukaddes Sakalli Demirok And Tuğba Şakir presented research titled “Determination of The Training Plans used in Special Education Teachers for Early Childhood Students”. The research aimed to determine the required training plans and curriculums of special education teachers in early childhood period.

27. Research titled “TRNC Higher Education Institutions Training Analysis” presented by Sevinç İşik and Umut Akçil. The research aimed to examine the educational environment of the TRNC Higher Education Institutions.

28. Necmi Sağiroğlu and Hasan Avciolet presented Research titled” Special Education and pre-training of Children for Children with Special Needs. Expectations from Rehabilitation Center. The research aimed to determine the expectations of the families with special needs (parents) from the special education and rehabilitation center.

29. Research titled “Investigation of Special Education and Programs and Studies for Research projects in Special Education”. This research presented by Beria Gökaydin and Mukaddes Sakalli Demirok and aimed to analyze the content of studies related to special education programs and to determine the trends in this area.

30. Özge Sakalli- Fahriye Altıncı-Gökmen Dağlı presented research titled “An Assessment of the Management. The different perspectives from Students, Teachers and schools”.

31. Research titled “The Quality view of project schools” presented by Mert Baştanşand Ahmet Koç.

32. Kezban Ozansoy and Özge Beyatli Presented Research Titled “Trends of Virtual Education Researches: Content Analysis Study”. The research aimed to determine scientific research trends related to virtual education.

33. Research titled “Investigation of The Relationship between School Executives and Internal Performance of Teachers”, presented Ayşe Nergis Aras, Eda Yenen and Umut Akçil. The researched aimed is to examine the relationship between the level of course control applied by the high school administrators and the internal motivations and task performance of physical education teachers.

34. İpek Danju, Seçil Besim and Didem İşlek Presented Research Titled “Evaluation Of The Implementation of The Cyprus and Turkish Cypriot Turkish History Teaching Program in Schools. The research aimed to evaluate the effectiveness of the curriculum of Cyprus and Turkish Cypriot History in the Schools.

35. Research titled “STEM Workshop Developed for Science Centers” presented by Semra Mirici, İpek Pirpiroğlu Gencer and Fitnat Köseoğlu.

36. Nesrin Menemenci Bahçelerli, Akış Yeşilada Vaiz, Gökay Eser and Osman Vaiz presented research titled “Alternative Assessment Approach As “Eportfolyo”.”
37. Research titled “The Opinions of Teacher candidates of Using E-Portfolio” presented by Osman Vaiz, Nesrin Menemenci Bahçelerli, Gökay Eser and Akiş Yeşilada Vaiz. The research aimed to determine the opinions of prospective teachers on the use of e-portfolio applications in schools.

38. Fahri Tümkan, Şengül Tümkan and Meliha Aslam presented research titled “Investigation of School Culture and Leadership Concepts on Scopus Database in Terms of Various Variables.”

39. Research titled “Samsun Tourism Awareness of High School Students Presented by Esra Şahiner. The research aimed to find out tourism awareness of high school students.”

40. Hüseyin Baykan presented research titled “Development of Universities in Higher Education in Northern Cyprus.”

41. Research titled “Environmental Education and Education for Sustainability: The need to promote Interdisciplinary Education presented by Şerife Gündüz, Aşkin Kiraz and Amirabbas Amiri.”

42. Başak Bağlama and yücehan Yücesoy presented research titled “Art in Intervention for Individuals with Autism: A Content Analysis Study.” The research aimed to examine the role of art as an Intervention tool for individuals with autism and determine trends in research related with autism and art.

43. Research titled “Cyprus Glossary of Combinations on The Region Resources of History Education presented by Erdinç Korkutür.”

44. Meltem Haksız and Başak Bağlama presented research titled “The relationship between daily life and reading, problem investigation: TRNC case study.”

45. Research titled “Investigation of The Concept of Migration in the Art of Northern Cyprus presented by Serkan İlseven and Fatma Miralay.”

46. Shagul Ali-Askin Kiraz presented research titled “An overview about the Science Books in North-Iraq from Environmental Perspective. The research aimed to determine the environmental perspective of the science textbooks that have been used in North Iraq’s government schools in terms of visual design and content design.”

International Conference on Interdisciplinary Educational Reflections (ICIER) 2020

It was announced that ICIER 2020 will be held on 27-29 March 2020 at Near East University. Selected papers will be published in the Near East University Online Journal of Education (NEUJE). This journal is also joint efforts of Graduate School of Educational Sciences and Faculty of Education at Near University.
